

**Press Release  
August 2009**

**Saxon Motorcycles Europe introduces the 4th model in Europe and a new dealer in Spain  
Saxon's new hard tail chopper "the Whip" also available in Spain!**

At the Arneitz Custom Show during the European Bike Week from 5 till 13 September in Faak am See Saxon Motorcycles Europe introduces her new European model: the **Whip**.

The Whip is a real hard tail high neck chopper, handmade but with modern technology. A rebellious uncompromising bike especially for men with guts. The proto-type of the Whip was shown during the Hamburg Harley Days in Germany and the Custom Show Viva La Clusaz in France. "The visitors have received the Whip, during these shows, with great enthusiasm and therefore it is fantastic that we are able to launch it so quickly" says Frank Vermeulen owner of Saxon Motorcycles Europe.

The Whip is the fourth Saxon model in Europe. All European models have the European Type Approval. "We are pleased that we can expand our selection once more with a unique model" according to Frank Vermeulen, "all models have their own character, expression and feel. Like our other models the Whip can be custom build to the wishes of the buyer".

"Due to efficiency, volume and a weak dollar we recently have lowered our prices on all models" adds Rinke Andringa, co-owner of Saxon Motorcycles Europe. "This gives us the opportunity to let more people experience the Saxon feeling". The Saxon Whip is from today available at our dealers in Europe.

Saxon also has expanded their dealer network with a new official dealer in Spain, Moto Innovación in Alicante. "A dealership in Spain was high on our list for a while now, so we are very happy that we can make a start here" explains Rinke Andringa.

Saxon stands for power and quality, comfort and self expression. It is a custom built bike handmade in the professional factory in the USA and therefore fits the driver excellently. It is a beautiful product, that retains its value.

Making the choice to own a Saxon is a true form of self-expression. A motorcycle synonymous with style and abundant with charisma, that is an experience all on its own. Each Saxon represents an unmatched level of comfort, sophistication, and reliability, complete with a 2-year factory warranty. Saxon is the number 1 USA production custom motor in Europe.
