**Travel Channel has new episodes again with Saxon Motorcycles  
Henry Cole in The World's Greatest Motorcycle Rides**

The Travel Channel is broadcasting new episodes of the television program called 'The World's Greatest Motorcycle Rides'. Obviously they do these rides with beautiful custom bikes. After having good experiences, they have again chosen to ride it on a Saxon, this time on a Griffin chopper.

Henry Cole, presenter of the program, chooses the routes in the USA and shows them to the viewer, enjoying the ride on the Saxon. In this episodes Henry Cole is Riding America's Wild West and Riding The American Dream.

Saxon Motorcycles Europe is very excited. "It is a real compliment and confirmation that our motorcycles are not only beautiful to see, but also fit to make every kind of ride, this shows the comfort and experience of riding a Saxon." says Rinke Andringa, owner. "In this program you can again see the Saxons in action, being driven throughout the most beautiful motorcycles rides in the World." adds Frank Vermeulen.

Saxon Motorcycles presents summaries of the earlier shows on their website and on YouTube.
